

# PULSAFEEDER®

## PULSAlink puts you in control anytime, anywhere.

Exclusive PULSAlink communication delivers cloud-based, secure mobile access to your MicroVision EX controller. Data is stored safely on the cloud, and AES 256-bit military-grade encryption provides unsurpassed security. Get easy-to-use, interactive reporting and graphing tools – plus quick access to settings and notifications – right from your mobile device. This level of connectivity enables you to monitor and make adjustments anytime, from anywhere.

*PULSAlink app gives water treaters easier access through streamlined navigation, putting vital information at your fingertips anytime, anywhere.*

## FEATURES

- Easy programming based on MicroVision simplicity.
- Install Wizard USB standard on all controllers to facilitate fast controller configuration.
- Easy installation - Remotely configure your controller in minutes using Install Wizard.
- Ability to add second water meter for increased water efficiency and accurately calculate evaporation credits.
- Customizable timer programs without system reboot.
- Customization relays, water meters inputs, reports and graphing.
- Unsurpassed reporting and graphing to help you do your job quickly and more accurately.
- Enhanced charting capabilities for representation of system parameters to track water treatment programs efficacy.
- Complete system right out of the box as MicroVision EX can be ordered with Modem Millie.
- eServiceReport compatible.
- Modbus BMS integration.

## PULSAlink ACCESS VIA

- Web
- App (iOS & Android)

# PULSAlink

## Cooling Tower Controller Communications Protocol

## EASY ACCESS ON THE GO.

PULSAlink communications enables you to use your mobile phone, tablet or computer to access your controller anytime from anywhere – putting vital information at your fingertips. The PULSAlink app gives water treaters easier access than the desktop version by offering more streamlined navigation.

### LIVE READINGS

View and monitor cooling tower readings anytime, anywhere using any device with an internet connection.

### CHANGE SETTINGS

MicroVision EX allows you to quickly change system settings remotely.

### EMAIL NOTIFICATIONS

Configure alerts for alarm notifications and live readings to be emailed to any necessary staff.

### REPORTS

Download and create reports without having to be in front of your controller.

## CUSTOMIZATION AT YOUR FINGERTIPS.

Customizable names for relays, water meters and inputs, synced to Controller, PULSAlink website, App iOS/Android, and reports. You deserve reporting capability that lets you do your job quickly and accurately, so you can get more done. And now you have it. PULSAlink doesn't require you to refresh the report to change test parameters. At any time, you can simply drag all parameters onto one screen. With PULSAlink, reporting has never been easier:

- Report page automatically pulls up past week's data
- Toggle from default report page to specific time periods and test output parameters
- Compatible with eServiceReport
- Unsurpassed reporting and graphing
- No need to enter individual dates and variables to develop graphs
- Enhanced charting capabilities
- Customizable timer programs without system reboot
- Robust data logging capabilities

## YOUR SECURITY IS A LOCK.

PULSAlink offers centralized data storage and management for superior control of your equipment. Should your controller ever be offline, your data is safe and accessible. Anyone attempting to access the PULSAlink website will need a login password, which is only generated by Pulsafeeder or your administrator.

MicroVision EX and PULSAlink are supported by the highest encryption level in the industry:

- Prevents unauthorized manipulation of controller
- Prevents unauthorized data access
- Connects directly to the Internet without the need of an additional modem
- Doesn't require the use of ports that may be affected by a firewall

**Communications with data logging and reporting has become very important in the fight against Legionella.**

**Timely response is vital. MicroVision EX with PULSAlink lets you quickly access your controllers without having to waste time driving to site locations.**
