

## SAFETY BULLETIN FOR THE CHEM-TECH XP PUMP SYSTEM

**WARNING** to users of the **CHEM-TECH XP PUMP SYSTEM** for water treatment – please **STOP USING the CHEM-TECH XP PUMP SYSTEM** and contact your dealer at the number provided in the cover letter to this Safety Bulletin to immediately schedule an appointment for a replacement part free of charge.

In rare circumstances, a timer in the pump could cause an unintended imbalance in the pH of treated water which could lead to irritation or burning of the skin or throat (for drinking water).

This **WARNING** applies to the models identified in the chart below that were sold between 2009-2015 (Date Code 01/09-12/15). This issue is rare, however, in an abundance of caution, please **STOP USING the CHEM-TECH XP PUMP SYSTEM** and contact your dealer to immediately schedule an appointment for a replacement part free of charge.

**Date Code**

**Model Number**
